

How is the swing determined?

The picture below illustrate how swing is determined.

How is the jamb depth determined?

Measure from the inside of the casing to the inside of the casing.

What color options are available for the hinges?

There are many hinge color options available for interior doors. The standard color is brass tone dichromate (dull brass). The other color options are oil rubbed bronze, antique brass, satin chrome, bright brass, antique bronze, bright chrome, antique nickel and satin nickel. There is no charge to upgrade to any of the non-standard colors if they are specified at the time of order.

Is pre-finishing available and how much does it cost?

Pre-finishing is available, but the price is determined by the specified finish and features. There are many color options available from standard light colors to special standard rich dark tones. Most of our distributors offer distressing services that can make a door look aged.
